From The Secy to the Hon'ble the Resident D.O. No. F. 150-1940 dt 12th July. 40 giving a summary of the decisions arrived at the Conference at the Residency on the 26th June 40

The draft of the I.G.P regarding the decisions arrived at the Conference is flagged "V". If approved a copy of the D.O. will be sent to the I.G.P. and Chief Commandant for information. A copy of the Rly Strike protection scheme has already been sent to the Railway.

The following are the points for orders.

3. Railways:- (b) Bangalore - Birnathanam section. Perhaps the I.G.P. may be asked to prepare a separate scheme in respect of this section. The Rly Strike Protection Scheme does not cover this section (Vide Para 2 of I.G.P's report)

(c) That the Mysore Govt should consider the enactment of legislation on the lines of the Rly Lands (Employment of Indian State Forces Amendment Act 1939 so as to provide legal protection for British Indian forces, civil or military, working within tactical distance of Railways within the State. For orders whether this may be referred to the Legislative Section for consideration.

4. Roads:- The I.G.P will be requested to prepare a list of important bridges and to indicate the Police responsible for the safety of those bridges. (Vide I.G.P's report last para)

6. Aerodromes and Landing Grounds.

Necessary action has already been taken by declaring the Bangalore Aerodrome as a protected place. The Dist. Hd. Qrs. do not consider that either observation or guard protection is necessary at present.

7. Wireless Broadcasting Stations

If opened, the Stations will be declared as a protected place.

8. Other vital places.

This Govt. have already declared certain telephone exchanges, oil installations etc. as protected places (Flag W).

9. Dangerous Agitators

The I.G.P. will be requested to keep a list of dangerous agitators and arrange for their early detention in the event of an emergency. In the I.G.P.'s report, there is no mention regarding the subject.

The I.G.P.'s draft refers also to the Key Scheme and the Protecting Armouries in the State. The Residency letter makes no mention of it. Submit for perusal and orders as to the further action to be taken in the matter.

Para (2) Copies of the Internal Security Scheme and the Railway Protection Scheme have already been sent to the Residency.

Para (3)(b) Bangalore-Bisanatham section. The I.G.P. may be requested to prepare a Scheme for this in consultation with the Comm^r of Police. This is necessary for the reason that although the British Police will hold themselves responsible for the lands within their jurisdiction, the State authorities will have to assume responsibility for the area beyond the Railway limits. This would thus form a part of the internal security programme. (Vide para 2 of the I.G.P's letter 1.7.40).

(3) (c) - may be agreed to.

(3) (d) There is a Scheme already for Strike protection. This will do for General protection purposes also, when any other emergency arises. Copy of the Strike Protn. Scheme has already been sent to the Res^y

(3) (e). Legislation is necessary and may be agreed to. This is a matter of reciprocity.

Para 4 - Roads. The I.G.P. may be requested to take necessary action in the matter. (Vide cl (7), para 3 Enclosure to the I.G.P's letter dt 1.7.40).

THE RESIDENCY,
BANGALORE.

Secret
D.O.No.F.150/1940

23rd June 1940.

My dear Sir Mirza,

The experience of the present war has shown that one of the methods adopted by an enemy to disorganise military effort and to alarm and harm the civil population is the employment of "Fifth Column" activities. Since it is not beyond the bounds of possibility that similar activities may at some future date be employed in India, His Excellency the Crown Representative considers it desirable that all internal security schemes should at once be revised, and where necessary expanded.

2. It is probable that no sufficiently self-contained scheme can be drawn up to meet efficiently all possible contingencies, but I am considering in conjunction with District Headquarters and with Mr. Green, as Commissioner of Police, Civil and Military Station, what our possible tasks may be and how best we can dispose our resources to cover them. I

would be grateful if, with a view to co-ordinating our schemes with those of the Mysore State, Major Macann could discuss the matter with Mr. Kesavaiengar as soon as possible.

The main points which require mutual elucidation are :-

(1) Railway protection, ✓

(2) The keeping open of trunk road communications, ✓

The protection of telegraph and telephone communication,

The protection of landing grounds for aeroplanes,

The consideration of the desirability of maintaining wireless communication where feasible.

The list of dangerous agitators and the consideration of preparations made in advance for dealing with them immediately on the outbreak of any serious internal disturbances.

3. As His Excellency the Crown Representative is most anxious that all these matters should be fully considered as early as possible, I would be most grateful if Mr. Kesavaiengar could discuss the matter informally with Major Macann and Mr. Green.

Yours sincerely

DECISIONS ARRIVED AT AT THE MEETING IN THE RESIDENCY ON THE MORNING OF THE 26TH JUNE 1940.

- oo -

A - RAILWAYS:

1. Railway Protection.

The Railway Strike Protection Scheme drawn up in consultation with the Commissioner of Police, Civil & Military Station, may be adopted also for protection in any emergency. This is purely a Civil and Police responsibility. The Military help, if required, would come under Internal Security Scheme.

2. The Mysore Scheme does not provide protection for Bisanatham Section - Broad Guage. The question whether the Mysore Strike Protection Scheme cannot provide for this also will be raised by the Residency. If the Government of Mysore agree to this, a separate scheme will be prepared in respect of this section. In respect of this section, the Madras Military District is taking responsibility as an important line though non-strategic. They have a Military Scheme for ensuring movement of troops at an emergency. It was agreed that a copy of this Scheme will be furnished to the Mysore Government. Copies of Mysore Scheme will be furnished to the Residency.

3. The Residency will address the Government of Mysore to pass an Act in Mysore similar to the law passed by the Crown Representative in Government of India Notification dated 2nd June 1940 affording protection to the Mysore Military acting in the ceded jurisdiction area. The Mysore Act will provide for the protection of the British Military acting in the State jurisdiction.

B - GENERAL SECURITY.

1. Copies of the Mysore Internal Security Scheme to be supplied to the Residency, as their Scheme is sent to us for reference when needed.

2. Extra copies of the Madras District Alarm Scheme will be supplied to the Chief Secretary so that the Inspector-General of Police and the Chief Commandant may have each a copy.

3. Keep Scheme.

The Hon'ble the Resident will revise it in consultation with the Inspector-General of Police and the Chief Commandant. This deals with the safety of Europeans in the State.

C - ARMOURIES.

Action should be taken locally for protection of Armouries in the Mysore State and also magazines containing large quantities of explosives. (Action is being taken in consultation with the Chief Inspector of Explosives.)

D - AERODROME (Landing Ground).

The Jakkanahally Aerodrome is already declared a protected place. Adequate Police protection will be afforded according to need from time to time.

E - PROTECTION OF TELEGRAPH AND TELEPHONE LINES.

It was agreed that complete patrol of these was not required. Lines passing along side of the Railway will be covered by the Railway Protection Scheme. A general circular may be issued to Deputy Commissioners to require village officers to keep a special eye on telegraph and telephone

telephone lines passing in their jurisdiction and take prompt action when need arises. For the present it will suffice if repairing gangs sent out for repair of the lines, are given Police help and protection, on requisition by the authorities concerned. (A circular to this effect is under issue by this Department).

F - KEEPING UP MAIN TRUNK ROAD.

It was agreed that Madras-Cannanore road alone requires attention. A list of important bridges should be prepared and the Police responsible for the safety of these bridges should be indicated in a memorandum and arrangements made accordingly.

INTERNAL SECURITY ARRANGEMENTS - MYSORE STATE.

My Dear Reeves,

I am desired to refer to Colonel Gordon's secret demi-official letter No. F.150-40, dated the 23rd June 1940 to Sir Mirza Ismail and to the conference at the Residency on the 26th June to which that letter led up.

2. It was agreed that the Government of Mysore will keep this Residency, and District Headquarters through this Residency, fully informed of their internal security arrangements. District Headquarters will similarly supply three copies of their relevant schemes through this Residency for the information of the Government of Mysore. The Inspector-General of Police in Mysore and the Commissioner of Police, Civil and Military Station, will co-ordinate all Police internal security arrangements which are of common concern.

3. Railways.

a). There are no strategic railways in the State.

b). Broad Gauge Line Bangalore - Madras; Section Bangalore-Bisnatham. This is an "important non-strategic" line required to be kept open for movements of troops. District Headquarters will clear the line for their own security during actual troop movements, but the responsibility for the security of the line vests in the Crown Representative's Police.

The Commissioner of Police and the Inspector-General of Police in Mysore, will draw up, in consultation, a security scheme for this section. This scheme will provide for re-inforcements of the Crown Representative's Police by State Police and when and if necessary by the military forces of the State.

c). Other Railways in the State over which jurisdiction has been ceded to the Crown Representative. The responsibility for the security of these lines vests in the Crown Representative's Police. The Commissioner of Police will likewise draw up for these railways in consultation with the Inspector-General of Police in Mysore, security schemes, which, again, will provide for re-inforcement of the Crown Representative's Police by the State Police; and when and if necessary by the State Military Forces.

d). Other Railways in the State. The responsibility for the security of these vests in the Mysore Government. The Inspector-General of Police, Mysore, will prepare a security scheme and forward copies for the information of this Residency and District Headquarters.

e). It was agreed that the Mysore Government should consider the enactment of legislation on the lines of the Railway Lands (Employment of Indian States Forces) (Amendment) Act, 1939, so as to provide legal protection for British Indian forces, civil or military, working within tactical distance of railways within the State.

4. Roads.

The only road of military importance is the road Madras-Bangalore-Mysore-Cannanore. The State will be responsible within their jurisdiction for ensuring that this road is kept open. To this end the Inspector-General of Police, Mysore, will provide, in the general internal security arrangements, for the protection of bridges and other vulnerable points.

5. Posts and Telegraphs.

The two key points are the junction offices and their installations at Bangalore and Mysore. They will be included in the Mysore and the Civil and Military Station general internal security arrangements and will when necessary be declared "protected places". As regards telegraph lines, those which run along railways will be provided for in the railway protection schemes. In addition the Police Forces concerned will be informed that it is a primary task for them to provide all necessary protection to repair gangs who ask for it.

6. Aerodromes and Landing Grounds.

It is understood that the Jakkur Landing Ground has already been declared a "protected place" by the Mysore Government. As far as District Headquarters are concerned, they do not consider that either observation or full protection is necessary at present.

7. Wireless Broadcasting Stations.

It is understood that the Government of Mysore are considering the opening of a broadcasting station. If opened, this may kindly be declared a "protected place" and included in the general internal security arrangements.

8. Other vital places.

These may include oil installations and storage plants, public utility installations, railway workshops, telephone exchanges and major industries of national importance. These may kindly be included in the general internal security arrangements of the State and be declared "protected places" as and when necessary.

9. Dangerous Agitators.

The Government of Mysore will list dangerous agitators and arrange for their early detention in the event of an emergency.

10. I am to ask whether you agree with this summary of the decisions we have reached and will implement them in due course. As Colonel Gordon has to furnish a return under all these heads to the Crown Representative, it is particularly requested that all internal security arrangements may be completed and co-ordinated as soon as possible. If there are any doubtful points, I would be glad to meet you for further discussion.

Yours sincerely

Hacaum.

Subject: Internal Security arrangements - Mysore State.

My dear Peel,

Ref 'B' Please refer to your Secret D.O. letter No.371 dated 29-7-1940.

Some time must elapse before final shape can be given to the various Schemes, but the following notes are by way of an ad interim report to indicate what is being done, in so far as action by this Department is required. The paragraphs are numbered to correspond with those of the Secretary to the Resident's D.O. letter No.F.150-1940 dated 12-7-1940:-

3. Railways.

(b) Broad-Gauge Line, Bangalore-Madras; Section Bangalore-Bisnatham.

The Commissioner of Police has already submitted proposals for a considerable increase in staff, on which the orders of the Government of India are awaited. The final Scheme cannot be worked out until the response of the Government of India is known.

(c) Other Railways in the State over which jurisdiction has been ceded to the Crown Representative.

Please see (b) supra.

(d) Other Railways in the State.

Ref 'A' In this connection reference is invited to paragraph 1 of the Minute forwarded with Mr. Ramanathan's D.O. letter No.C.C.66/39-40 dated 1-7-1940. In view of the likelihood that the entire area of each district would be simultaneously affected and not merely the railway itself, the Railway Strike Protection Scheme of 1940 could be employed only to a strictly limited extent, e.g. the utilisation of Village Police for

for patrolling the line, the protection of the most vital points by Civil Police and the provision of additional investigating centres mainly with a view to coordinating and supervising the work of the Village and Civil Police aforesaid.

The General Manager has been asked to furnish a list of the places most urgently in need of protection.

4. Roads.

It is understood that the Military authorities would be satisfied if the Madras-Bangalore-Mysore-Calicut Road were kept open. The responsibility of the State Police would thus extend from Nangli to Gundlupet.

The Superintending Engineer has been asked to indicate the most vital points.

5. Posts and Telegraphs.

The District Superintendent of Police, Mysore, will make arrangements to protect the junction office at Mysore whenever the situation requires it. District Superintendents of Police will also be asked to furnish protection to repair gangs in similar circumstances.

8. Other vital places.

Some of these will require continuous protection from now on, others during a state of emergency only. To meet these demands it will be necessary to recruit at least 100 temporary additional armed police for the duration of the War, preferably from among ex-soldiers of the State Forces. Detailed proposals will shortly be submitted for the sanction of Government.

9. Dangerous Agitators.

Lists are now being prepared in the Special Branch of the Criminal Intelligence Department.

2. The Resident would be glad to know whether the Government of Mysore have prepared lists of dangerous agitators and arranged for their early detention in the event of an emergency. It will be realised that these lists will lose much of their efficacy unless they are co-ordinated with those maintained by the Commissioner of Police, Civil and Military Station. I am to request therefore that co-ordination may kindly be carried out at the earliest convenience of the Government of Mysore.

Reg 'O'

With reference to your Secret letter No.1727/CB dated the 14th October 1940, I have the honour to enclose copies of a D.O.letter No.S.B.761-40 dated the 15th October from Mr.Green and my reply.

I have the honour to be,

Sir,

Your most obedient servant,

INSPECTOR-GENERAL OF POLICE.

Secret D.O.No.SB/761-40 dated 15th October 1940, from the - Commissioner of Police, C & M Station, Bangalore, to the Inspector General of Police in Mysore, Bangalore.

Doubtless you have by now received D.O.No.F.150-1940 dated the 26th September 1940 from the Secretary to the Resident to the Chief Secretary to the Government of Mysore, on the subject of dangerous agitators.

So far as the Civil & Military Station is concerned we have none to classify as "Dangerous Agitators", though there are undoubtedly some that one would keep an eye on as being interested in Labour, or likely to take to Satyagraha.

Have you any reason to suppose that any persons resident in the C & M.Station are dangerous to Mysore State, or that any persons classified by you as 'Dangerous' have connections or possible harbourers or refugees in the C & M.Station?

In any case I should be glad to have your list of Dangerous agitators in due course.

INSPECTOR-GENERAL OF POLICE.

Secret D.O.letter No.130/39-40/SB. dated 20/21st October 1940, from the Inspector-General of Police in Mysore, Bangalore, to the Commissioner of Police, C & M Station, Bangalore.

As desired in your Secret D.O.letter No.S.B.761/40 dated October 15, 1940, I enclose a copy of our list of "dangerous agitators". -

We do not know of any persons living in the Civil and Military Station who could be classed as dangerous to the Mysore State nor of persons classified by us as 'dangerous' who have connections in the Civil and Military Station

Military requirements in respect of roads in Indian States.

I am desired to say that the Government of India consider it necessary that the portions of (1) the Poona - Bangalore - Madras and (2) Bangalore - Mysore - Cannanore via Hunsur and Siddapur roads which are situated within the Mysore State, should as far as possible be raised to the standard required by military vehicles. I am to enclose a copy of a brief note on the requirements and to suggest that, if the Government of Mysore have no objection, on points of detail the Chief Engineer of the Mysore State should get into touch with Mitchell (Consulting Engineer, Roads, Department of Communications).

2. In order to ensure that the Government of Mysore is not put to the expense of raising a section of road to a bridge standard unattainable in a continguous section in charge of another Administration it is suggested that the Government of Mysore should allow the Government of India to co-ordinate and to advise what should be done.

3. Colonel Gordon would be grateful if the Government of Mysore would see their way to meet the wishes of the Government of India in the matter.

"C O P Y"

Note on the standards required for military transport on certain roads.

1. Surface: Military traffic may occasionally be intense over short periods but is not expected to be continuous. Ordinary first class trunk road standard will suffice. If there is any doubt a reference may be made to the Consulting Engineer (Roads), Communications Department, if advice is needed.

2. Bridges and culverts. (1) Irish bridges or low causeways that cause serious interruptions are undesirable. As a rought guide, delays for as much as 12 hours at a time on more than six occasions in a normal monsoon year; and repeated delays of a few hours duration must be regarded as serious.

(2) Weight capacity:- Bridges and culverts should be up to Indian Roads Congress standard loading if possible. Failing that they should be strong enough to carry nine tons laden weight lorries, singly, the detail of the load being - Front Axle 2½ tons. Rear Axle 6½ tons. Wheel base 14 feet. Track 6 feet.

22nd November 1940.

My Dear Narayana Rao,

I am desired to acknowledge receipt of your secret demi-official letter No.2174/CB dated the 20th November and to say that there does not appear to have been any previous correspondence regarding the protection of the Harihar-Bangalore road, but that in view of my secret demi-official letter No.F.258/1940 dated the 7th November 1940 it is considered that since this road also is of military importance the same protection of vital places on it should be provided for in the same way as on the Bangalore-Mysore-Cannanore Road. I am therefore to request that the Mysore Government will kindly take steps to this end and inform this Residency when arrangements have been completed.

Yours sincerely,

Sir,

In reply to your Secret letter No. 2176/C.B. dated 20th November in the matter of the reply to the Residency letter No.F.150-1940 dated 19th November 1940, I have the honour to state that no instructions have till now been received for the protection of vital points such as bridges along the Bangalore - Harihar Road. No action has therefore been taken till now.

I am now calling for information about vital points on this road from the Superintending Engineers of Mysore and Shimoga. If Government so direct, arrangements will be made for the protection of vital points on receipt of information from the Superintending Engineers and further proposals submitted to Government, if found necessary.
